Reviews

Amazon reviewers give their play-by-play:

"The magazine has full statistics, opinions, lists, previews, prospects, etc. that allow the reader to keep tabs on players on all teams in both leagues. But my favorite parts are the oddities not obtainable in any other sports publication covering baseball. Idiosyncratic as a T, its editors don't toe the MLB line, and you'll read anything from an independent piece on how the writers think the game can be improved to a proposal on revising how Elias Sports Bureau calculates some of its statistics. Every issue is laced with debatable topics for die-hard baseball fans without casting aspersions."

"This magazine was a gift for my grandson, who really loves baseball! He received his first issue recently and told me he read it from cover to cover! Glad I ordered it for him."
